# IDC APPLICATION TOOLING

## IDC crimping multi cord cable with customer made tooling

Manual insertion  
of the multi conductors  
and the connector

Conductor + Connector  
Positioned with  
indexing

Conductor piercing  
with individual  
cut & crimp tool

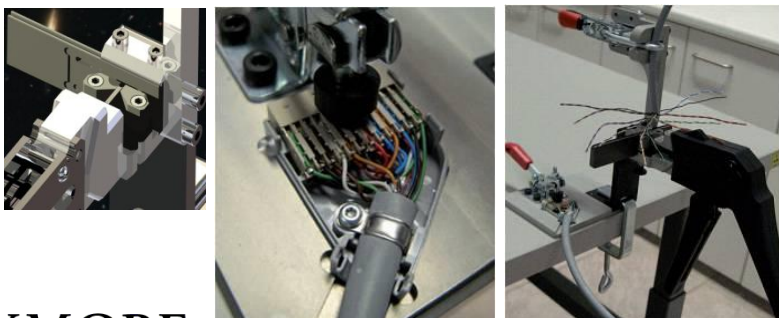

### Application Features

- Sequential piercing of the conductors
- Very short jacket break-out lengths

### Tooling Features

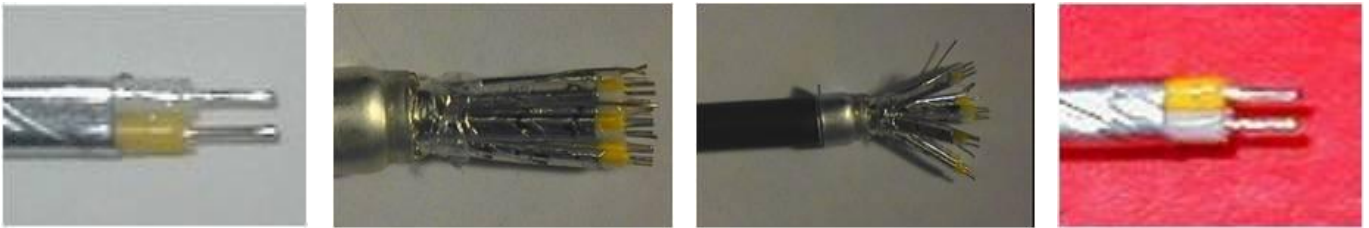

- Exact positioning of the connector
- High repeatability and full crimp depth control
- Customer made solution
- Flexible and quick change-overs

# IDC APPLICATION TOOLING

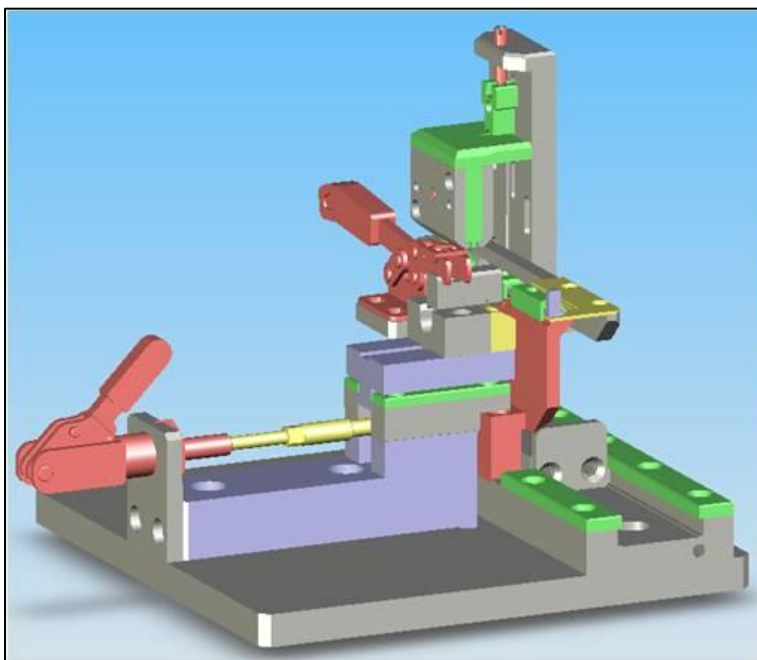

## Strip multi cord cable with customer made tooling

Manual insertion  
of the multi conductor  
in the strip tooling

Conductor + shielding  
positioned with  
exact stripping length

Conductor and  
Shielding cutting  
and stripping

### Application Features

- Patent pend. Lateral cut & stripping
- Very short jacket break-out lengths

### Tooling Features

- Exact positioning of the conductors
- High repeatability
- Customer made solution
- Flexible and quick change-overs
